

OPEN HOUSE—An open house in the new \$100,000 medical building at 2418 Torrance Blvd. will be hosted Sunday from 1 to 3:30 p.m. by Dr. Ernest J. Tarr, Torrance credit dentist. Refreshments will be served.

Dr. Tarr to Hold Open House at New Dental Building This Sunday

Offices of Dr. Ernest J. Tarr, Torrance credit dentist, have been moved to a new modern \$100,000 medical building at 2418 Torrance Blvd.

Dr. Tarr's patients and friends are invited to attend Open House celebration, Sunday afternoon, from 1 to 3:30 p.m. Refreshments will be served.

The new building, which artistically blends Palos Verdes rock and glass and includes a landscaped patio, contains three suites with a floor space area of 300 square feet.

Dr. Tarr's suite will include six operating rooms, a separate sterilizing room and will have a complete laboratory equipped for emergency needs.

In addition to a waiting room, the office will include a recovery room where patients may rest after oral surgery.

Dr. Tarr said that the building was designed by Architects Lusby and Jonich and built by Hinnwinkel Construction Co.

He announced that he will continue his policy of liberal credit terms for all dental needs, and that office hours will be from 10 a.m. to 7 p.m., Monday through Saturdays. In addition, Dr. Tarr will be available on 24-hour call, and has portable equipment with which to treat bed-ridden patients with dental problems.

He pointed out that no appointments are necessary for emergency care, and no charge

will be made for house calls on invalids.

Dr. Tarr, a veteran of both World War II and Korea, when he served in the Air Force, established his practice at 1311 Sartori Ave., Torrance, three and one-half years ago when he returned from overseas.

He was raised in Los Angeles and attended Los Angeles City College and UCLA, and received his degrees in dentistry and dental surgery from the University of California Medical Center in San Francisco.

All offices are completely air conditioned at a cost of \$12,000, alone, and are equipped with hi-fi and inter-com systems throughout. All offices are on the ground floor and off-street parking is provided on a spacious lot.

EUROPE IN MINIATURE
Dr. Paul Gethner, 1753 Cabrillo Ave. returned Jan. 4 from a trip to Mexico he describes as a European trip in miniature. He visited in both Mexico City and Acapulco.

Dr. Tarr points out that the most modern equipment available is used throughout his office, including a thermo-couple gold casting machine and controls, steam sterilizers, double high pressure vacuum oxygen and anesthetic equipment and complete facilities for plate work and laboratory.

Associated with Dr. Tarr are two other dentists, Dr. Phillip Freeman and Dr. Harvey Gold, four nurses and three lab technicians.

Lutheran Church Dedicates Bldg.

The newly constructed Educational building of St. Matthew Lutheran Church, Normandie and Lomita Blvd., will be dedicated on Jan. 25 at 3 p.m.

The building is of modern design and has two class rooms and principal's office.

A guest speaker will be present for the dedication service. Choral selections will be rendered by the children's and adult choirs. In an impressive ceremony following the church service, the keys will be given to the pastor, E. M. Passow, by Ray H. Ferrin, chairman of the building committee.

Hull Sees Fifth High School

The possibility of a fifth high school for Torrance will be studied by local school officials as the result of discussions at the Torrance School Board meeting Tuesday night.

Officials will study possible sites in the south central part of the city of Torrance and eye enrollment figures closely to determine whether the site will be needed.

Because of rising land values, the school district might be able to save several hundred thousand dollars if the site were purchased now, even though it might not be needed for several years.

Based upon the number of children in houses now built or under construction, the Department of Special Services figures that more than 3000 high school students will live in the West High attendance area within 10 years.

If the Victor Tract, the Watteria Lake area, and other large undeveloped areas of the city should be filled with houses or apartments, a fifth high school probably would be needed to take care of all students, Hull said. It appears likely that the Victor Tract will become part of the Torrance School District this year.

Hull described the estimate of 3000 students in the West High area as "probably conservative" since the figures do not include students from areas which are now vacant.

SECURITY INVESTMENTS

Security Investments, a class in stock market fundamentals, will be offered by the Torrance Evening High School at Fern Avenue School cafeteria, Elm and Eldorado Sts., on Wednesdays from 7:30 to 9:30 p. m., according to Victor Kilburn, principal. The first session will meet on Feb. 4.
